

MICROGREENS : OUR SEEDS SELECTION AVAILABLE ALL YEAR ROUND !

 **GRAINES VOLTZ** For the production of microgreens, special seeds have been selected by Graines Voltz. With 36 years of experience in the production and the distribution of seeds, we propose a wide range of varieties, strictly tested and selected in order to give you the highest quality.

Pea, dill, sorrel or radish, we have chosen the best and we have adapted our packaging to give you the opportunity to produce the most beautiful microgreens! Along the pages, you will discover an innovative range that we are pleased to offer you for the first time on this year 2021.

500g
1kg

BIO

SUNFLOWER
(ORNEMENTAL)
Heliantuss annuus

1kg
5kg

INFOS

Seeds' quality and tracability are at the center of our work. Seeds we specially selected for microgreens are subjected to bacteriological analysis.

We emphasize the fact that seeds we are selling are intended for microgreens production only and are unfit for human consumption.
